MBW.COM

BUILDING A BETTER JOBSITE EXPERIENCE

The BullVibe® by MBW is a unique vibratory bull float attachment designed for concrete finishing. Powered by the M18 Redlithium Battery platform, the BullVibe features fully variable vibratory output control that can be locked into place, along with LED lights to illuminate dim job sites. The sealed vibratory system prevents concrete build-up to ensure continuous operation without unnecessary downtime. The BullVibe can save a pour when concrete or weather conditions cause the pour to set up too fast.

UPGRADE YOUR CONCRETE FINISHING GAME WITH THE BULLVIBE®

POWERED BY M18™ REDLITHIUM™

Experience the freedom of cordless operation with the versatility to use any size M18 REDLITHIUM battery.

Fully Variable Vibratory Output

Achieve precise results with our state-of-the-art vibratory system. Adjust the vibratory output to match your specific requirements and lock it in position, ensuring a consistent and flawless finish every time.

Enhanced Visibility with LED Lights

Conquer dimly lit job sites with confidence. Equipped with powerful LED lights, the BullVibe provides exceptional visibility, allowing you to work efficiently even in challenging lighting conditions.

Sealed System for Concrete Build-Up Prevention

No more frustrating interruptions due to concrete build-up. Our sealed system is designed to prevent concrete accumulation, ensuring continuous operation without unnecessary downtime.

Smooth Rotating Knuckle Design

Experience unparalleled usability with our smooth rotating knuckle design. Effortlessly adjust the pitch of the float, making the finishing process smoother and more precise.

Universal Compatibility

The MBW Vibratory Bull Float Attachment is compatible with a range of leading float brands, including Marshalltown, Kraft, Roseburrough Tool, and Bon Tool. This ensures that you can seamlessly integrate our attachment into your existing toolkit.

MODEL	20M

ABOUT MBW INC.

Since 1967, MBW has been at the forefront of manufacturing innovative compaction, concrete, and related equipment for the construction industry.

WHAT SETS MBW APART?

MBW doesn't simply follow the crowd; we innovate. Each new engineering project begins with the belief that there is always room for improvement—whether in productivity, maintenance, longevity, user safety, or cost-effectiveness. Our research and development often lead to groundbreaking solutions that set new standards in the industry. MBW products enhance productivity, provide the safest tools in their class, address long-standing maintenance issues, and extend product lifespans. **Our mission is to offer equipment users significant, tangible value—clear reasons to choose MBW products.**
